Emerge

A$900 • Available

Emerge explores a fleeting moment in nature — the instant a eucalyptus gumnut bursts open to reveal the delicate flower within. It is a moment rarely witnessed. We are familiar with seeing these flowers already open, but the brief transition from enclosed bud to emerging bloom often passes unnoticed. Through shallow relief carving, this work captures that elusive moment in time, revealing the beauty and energy of nature's unfolding forms. Carved from timber sourced from a local supplier near Moruya, on the NSW South Coast, Emerge is also part of an ongoing artistic exploration of organic forms, with the potential to inspire future large-scale metal sculptures.

Timber, species unidentified. Shallow-relief carving.

300 W × 300 H × 35 D mm

Engraved hanging bracket fitted to the back.

Emerge up close

The rear hanging bracket is engraved with details specific to Emerge.

Angled view of Emerge showing the depth of the relief and the thickness of the timber.
