Small Leaps

A$60 each • Three in stock

Taking a leap means choosing a direction before you know where you will land. The lifted limbs and bright steel eyes of these frogs capture that instant in the air.

Forged from a single piece of 1.6 mm weathering steel (Corten), with steel eyes.

Sculpture: 13 cm wide × 15 cm deep × 18 cm high. Round steel stake: 100 cm long, 10 mm diameter.

Three Small Leaps are in stock at A$60 each. More can be made by commission.

Small Leaps in detail

A group of Small Leaps.
