Pear on Pedestal

A$600 • Available

Pear on Pedestal began as a study in form and laid the groundwork for Thomas Westra’s Penny Pear series. Handcrafted from recycled steel and steel washers, its open construction gives the familiar pear silhouette a light, airy quality.

Recycled steel, steel washers and reclaimed hardwood pallet timber.

Dimensions to be confirmed.

The reclaimed hardwood pedestal and ground stake are included. The stake secures the pedestal in the garden, and the pear can be detached for display on its own.

Pear on Pedestal up close

A close view of the steel washers and open construction.
