Vein Flow 1

A$400 • Available

Vein Flow 1 began as an exercise in CAD modelling, exploring how flowing, organic shapes could be developed and translated into timber. The leaf is formed from a network of gently tapering, rounded veins that branch through its surface, giving the design a sense of movement and natural growth. Carved in ironbark, this slender shallow-relief artwork brings together the warmth of timber and the precision of a digitally developed form.

Ironbark timber. Shallow-relief carving.

148 W × 422 H × 25 D mm

Engraved hanging bracket fitted to the back.
