Vein Flow 3

A$400 • Available

Vein Flow 3 revisits the same flowing leaf design as Vein Flow 1, this time carved in spotted gum. Developed through CAD modelling, the design uses tapered, rounded forms to create a branching network of veins that gives the leaf its organic character. The lighter timber offers a different expression of the same design, highlighting the relationship between the sculpted contours and the natural grain of the wood.

Spotted gum timber. Shallow-relief carving.
